Re: AES Sparrows Point LNG, LLC and Mid-Atlantic Express, L.L.C.
Docket Nos. CP07-62 and CP07-63

Dear Ms. Bose:

On April 5, 2007, AES Sparrows Point LNG, LLC and Mid-Atlantic Express, L.L.C. (collectively "AES") submitted their responses to the Federal Energy Regulatory Commission's ("Commission's") Environmental Data Requests issued on March 16, 2007. AES hereby submits Table 8.3.2-1 (Attachment LURA6c) in response to Land Use, Recreation and Aesthetics Request 6. Table 8.3.2-1 was inadvertently omitted from AES's April 5, 2007, filing.

AES is filing one original and seven copies of this filing. In addition, a copy of the filing is being provided directly to Commission Staff and Richard Yuill, Project Manager for AMEC Paragon, Inc., the Commission's third-party environmental services contractor for the Sparrows Point Project.

If you have any questions concerning the enclosed materials, please do not hesitate to contact me at (202) 639-7727, or Mark Cook at (202) 639-7779.

Very truly yours,

Jessica Fore BY BH

Jessica Fore

a/ Water/Wetland mileages and acreages measured between edge of buffers (indicated by reduced ATWS width) on each side of the wetland or stream.

b/ Includes state, county, and local roadways, and railways.

c/ Includes land for pipeline facilities that is located at existing aboveground stations and facilities

d/ Percentage based on linear feet of land use

e/ Consists of entire construction workspace for pipeline facilities, including ATWS areas. Acreages were calculated using polygon analysis and therefore totals may not always equate to a straight length times width calculation.

f/ Consists of only the 25-foot-wide newpermanent maintained workspace for the proposed pipeline facilities that will be permanently maintained (i.e., right-of-way beyond existing maintained right-of-way), and excludes the 25-foot-wide overlap with the existing maintained workspace. Acreages were calculated using polygon analysis and therefore totals may not always equate to a straight length times width calculation.

g/ Percentage based on total temporary and permanent acreages impacted by the Project.
