CP06-54-000

Dear Ms. Salas

I am opposed to putting the gas line in the sound, otherwise known as Broadwater.

New York already has so many pollutants, due, mostly to our population density. We do not need to add other things to our environment that will increase this.

Broadwater will be too costly, risky, and it is not needed in the Sound. The constant armed security will disrupt the peacefulness of the Sound.

Our family utilizes the Sound all summer long for boating, swimming, and fishing. We do not want to see a natural resource such as this changed.

Sincerely,

William Dugan
