EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc. (EDR).

TARGET PROPERTY INFORMATION

ADDRESS

ETC-S PROJECT
MISSION VIEJO, CA 92691

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records within the requested search area for the following databases:

FEDERAL ASTM STANDARD

Proposed NPL..... Proposed National Priority List Sites
CERC-NFRAP..... CERCLIS No Further Remedial Action Planned
ERNS..... Emergency Response Notification System

STATE ASTM STANDARD

AWP..... Annual Workplan Sites
Toxic Pits..... Toxic Pits Cleanup Act Sites
SWF/LF..... Solid Waste Information System
CA BOND EXP. PLAN..... Bond Expenditure Plan

FEDERAL ASTM SUPPLEMENTAL

CONSENT..... Superfund (CERCLA) Consent Decrees
Delisted NPL..... National Priority List Deletions
HMIRS..... Hazardous Materials Information Reporting System
MLTS..... Material Licensing Tracking System
MINES..... Mines Master Index File
NPL Liens..... Federal Superfund Liens
TSCA..... Toxic Substances Control Act
FTTS..... FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

STATE OR LOCAL ASTM SUPPLEMENTAL

AST..... Aboveground Petroleum Storage Tank Facilities

EDR PROPRIETARY DATABASES

Coal Gas..... Former Manufactured Gas (Coal Gas) Sites

EXECUTIVE SUMMARY

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in *bold italics* are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

FEDERAL ASTM STANDARD

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 01/23/2001 has revealed that there is 1 NPL site within the searched area.

<u>Site</u>	<u>Address</u>	<u>Map ID</u>	<u>Page</u>
<i>USMC AIR STATION EL TORO</i>	<i>LAT 33 40 19 LONG 117</i>	<i>0</i>	<i>21</i>

CERCLIS: The Comprehensive Environmental Response, Compensation and Liability Information System contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the CERCLIS list, as provided by EDR, and dated 04/16/2000 has revealed that there is 1 CERCLIS site within the searched area.

<u>Site</u>	<u>Address</u>	<u>Map ID</u>	<u>Page</u>
<i>USMC AIR STATION EL TORO</i>	<i>LAT 33 40 19 LONG 117</i>	<i>0</i>	<i>21</i>

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 04/20/2000 has revealed that there is 1 CORRACTS site within the searched area.

<u>Site</u>	<u>Address</u>	<u>Map ID</u>	<u>Page</u>
<i>USMC AIR STATION EL TORO</i>	<i>LAT 33 40 19 LONG 117</i>	<i>0</i>	<i>21</i>

EXECUTIVE SUMMARY

RCRIS: The Resource Conservation and Recovery Act database includes selected information on sites that generate, store, treat, or dispose of hazardous waste as defined by the Act. The source of this database is the U.S. EPA.

A review of the RCRIS-TSD list, as provided by EDR, and dated 06/21/2000 has revealed that there is 1 RCRIS-TSD site within the searched area.

<u>Site</u>	<u>Address</u>	<u>Map ID</u>	<u>Page</u>
USMC AIR STATION EL TORO	LAT 33 40 19 LONG 117	0	21

RCRIS: The Resource Conservation and Recovery Act database includes selected information on sites that generate, store, treat, or dispose of hazardous waste as defined by the Act. The source of this database is the U.S. EPA.

A review of the RCRIS-LQG list, as provided by EDR, and dated 06/21/2000 has revealed that there are 5 RCRIS-LQG sites within the searched area.

EXECUTIVE SUMMARY

STATE ASTM STANDARD

CAL-SITES: Formerly known as ASPIS, this database contains both known and potential hazardous substance sites. The source is the California Department of Toxic Substance Control.

A review of the Cal-Sites list, as provided by EDR, has revealed that there are 2 Cal-Sites sites within the searched area.

<u>Site</u>	<u>Address</u>	<u>Map ID</u>	<u>Page</u>
DRY CLEAN USA	24000 ALICIA PARKWAY, S	10	169
SOLAG DISPOSAL SITE	31731 PASEO ADELANTO	35	438

CHMIRS: The California Hazardous Material Incident Report System contains information on reported hazardous material incidents, i.e., accidental releases or spills. The source is the California Office of Emergency Services.

A review of the CHMIRS list, as provided by EDR, and dated 12/31/1994 has revealed that there are 9 CHMIRS sites within the searched area.

CORTESE: This database identifies public drinking water wells with detectable levels of contamination, hazardous substance sites selected for remedial action, sites with known toxic material identified through the abandoned site assessment program, sites with USTs having a reportable release and all solid waste disposal facilities from which there is known migration. The source is the California Environmental Protection Agency/Office of Emergency Information.

A review of the Cortese list, as provided by EDR, has revealed that there are 41 Cortese sites within the searched area.

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, and dated 10/15/1990 has revealed that there are 89 UST sites within the searched area.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency

A review of the HAZNET list, as provided by EDR, has revealed that there are 213 HAZNET sites within the searched area.

Threat to Water Quality:	

Major Threat to Water Quality. A violation could render unusable a ground water or surface water resource used as a significant drink water supply, require closure of an area used for contact recreation, result in long-term deleterious effects on shell fish spawning or growth areas of aquatic resources, or directly expose the public to toxic substances.

Facility Type:	Solid Waste Site-Class III - Landfills for non hazardous solid wastes.
Complexity:	Category B - Any facility having a physical, chemical, or biological waste treatment system (except for septic systems with subsurface disposal), or any Class II or III disposal site, or facilities without treatment systems that are complex, such as marinas with petroleum products, solid wastes, and sewage pump out facilities.
Prime Waste:	Solid Wastes - Nonhazardous Solid Wastes/Influent or Solid Wastes that contain nonhazardous putrescible and nonputrescible solid, semisolid, and liquid wastes (E.G., garbage, trash, refuse, paper, demolition and construction wastes, manure, vegetable or animal solid and semisolid waste).

S102005221

Design Flow:	30 Million Gal/Day	Baseline Flow:	19 Million Gal/Day
Facility Type:	Municipal/Domestic - Facility that treats sewage or a mixture of predominantly sewage and other waste from districts, municipalities, communities, hospitals, schools, and publicly or privately owned systems (excluding individual subsurface leaching systems disposing of less than 1,000 gallons per day).		
Facility Status:	Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.		
Agency Type:	Special District (Includes districts established under general acts, sanitary districts, water districts irrigation districts, etc.)		
Waste Type:	Domestic Sewage combined with Industrial Waste - Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.		
Threat to Water:	Major Threat to Water Quality. A violation could render unusable a ground water or surface water resource used as a significant drink water supply, require closure of an area used for contact recreation, result in long-term deleterious effects on shell fish spawning or growth areas of aquatic resources, or directly expose the public to toxic substances.		
Complexity:	Category A - Any major NPDES facility, any non-NPDES facility (particularly those with toxic wastes) that would be a major if discharge was made to surface or ground waters, or any Class I disposal site. Includes any small-volume complex facility (particularly those with toxicwastes) with numerous discharge points, leak detection systems or ground water monitoring wells.		
Reclamation:	No reclamation requirements associated with this facility.		
POTW:	POTW has a local pretreatment program that has been approved by the U.S. EPA (or the regional board if the state is delegated the Federal Pretreatment Program) as being in conformance with federal prtreatment regulations [40CFR Part 403].		
NPDES Number:	CA0107417 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board		
Subregion:			9

Agency Contact: MARVIN HOWELL **Agency Phone:** (619) 577-2772

Design Flow: 0 Million Gal/Day **Baseline Flow:** 0 Million Gal/Day

Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.

Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.

Agency Type: Private

Waste Type: Washwater Waste (Product washwater wastes: E.G., photo reuse wastewater, vegetable washwater) - Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.
 Dredging Spoils - Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.

Threat to Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Reclamation: No reclamation requirements associated with this facility.

POTW: The facility is not a POTW.

Agency Phone: (949) 459-6402

Baseline Flow: 2 Million Gal/Day

Facility Type: Municipal/Domestic - Facility that treats sewage or a mixture of predominantly sewage and other waste from districts, municipalities, communities, hospitals, schools, and publicly or privately owned systems (excluding individual subsurface leaching systems disposing of less than 1,000 gallons per day).

Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.

Agency Type: Special District (Includes districts established under general acts, sanitary districts, water districts irrigation districts, etc.)

Waste Type: Domestic Sewage - Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.

Threat to Water: 0

Complexity: Not reported

Reclamation: Producer: Reclamation requirments that have been issued to a producer of reclaimed water that does not use the product.

Threat to Water: this category. Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds withouth a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Reclamation: No reclamation requirements associated with this facility.

POTW: The facility is not a POTW.

EPA Waste Codes Addendum

Code	Description
D001	IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
D002	A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
D003	A MATERIAL IS CONSIDERED TO BE A REACTIVE HAZARDOUS WASTE IF IT IS NORMALLY UNSTABLE, REACTS VIOLENTLY WITH WATER, GENERATES TOXIC GASES WHEN EXPOSED TO WATER OR CORROSIVE MATERIALS, OR IF IT IS CAPABLE OF DETONATION OR EXPLOSION WHEN EXPOSED TO HEAT OR A FLAME. ONE EXAMPLE OF SUCH WASTE WOULD BE WASTE GUNPOWDER.
D005	BARIUM
D006	CADMIUM
D007	CHROMIUM
D008	LEAD
D009	MERCURY
D010	SELENIUM
D011	SILVER
D018	BENZENE

D035	METHYL ETHYL KETONE
D039	TETRACHLOROETHYLENE
D040	TRICHLOROETHYLENE
F002	THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2-TRICHLOROETHANE; ALL SPENT SOLVENT

EPA Waste Codes Addendum

Code	Description
	MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE LISTED IN F001, F004, OR F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
F005	THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Elapsed ASTM days: Provides confirmation that this EDR report meets or exceeds the 90-day updating requirement of the ASTM standard.

FEDERAL ASTM STANDARD RECORDS

NPL: National Priority List

Source: EPA
Telephone: N/A

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC).

Date of Government Version: 01/23/01
Date Made Active at EDR: 02/16/01
Database Release Frequency: Semi-Annually

Date of Data Arrival at EDR: 02/05/01
Elapsed ASTM days: 11
Date of Last EDR Contact: 02/05/01

Proposed NPL: Proposed National Priority List Sites

Source: EPA
Telephone: N/A

Date of Government Version: 01/23/01
Date Made Active at EDR: 02/16/01
Database Release Frequency: Semi-Annually

Date of Data Arrival at EDR: 02/05/01
Elapsed ASTM days: 11
Date of Last EDR Contact: 02/05/01

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

Source: EPA
Telephone: 703-413-0223

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 04/16/00
Date Made Active at EDR: 08/16/00
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 06/05/00
Elapsed ASTM days: 72
Date of Last EDR Contact: 12/29/00

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Source: EPA
Telephone: 703-413-0223

As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" (NFRAP) have been removed from CERCLIS. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action or NPL consideration. EPA has removed approximately 25,000 NFRAP sites to lift the unintended barriers to the redevelopment of these properties and has archived them as historical records so EPA does not needlessly repeat the investigations in the future. This policy change is part of the EPA's Brownfields Redevelopment Program to help cities, states, private investors and affected citizens to promote economic redevelopment of unproductive urban sites.

Date of Government Version: 04/16/00
Date Made Active at EDR: 08/16/00
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 06/05/00
Elapsed ASTM days: 72

ERNS: Emergency Response Notification System

Source: EPA/NTIS
Telephone: 202-260-2342

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 08/08/00
Date Made Active at EDR: 09/06/00
Database Release Frequency: Quarterly

Date of Data Arrival at EDR: 08/11/00
Elapsed ASTM days: 26
Date of Last EDR Contact: 02/02/01

FEDERAL ASTM SUPPLEMENTAL RECORDS

BRS: Biennial Reporting System

Source: EPA/NTIS
Telephone: 800-424-9346

The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

Date of Government Version: 12/31/97
Database Release Frequency: Biennially

Date of Last EDR Contact: 12/19/00
Date of Next Scheduled EDR Contact: 03/19/01

CONSENT: Superfund (CERCLA) Consent Decrees

Source: EPA Regional Offices
Telephone: Varies

Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.

Date of Government Version: N/A
Database Release Frequency: Varies

Date of Last EDR Contact: N/A
Date of Next Scheduled EDR Contact: N/A

ROD: Records Of Decision

Source: NTIS
Telephone: 703-416-0223

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 09/30/99
Database Release Frequency: Annually

Date of Last EDR Contact: 01/09/01
Date of Next Scheduled EDR Contact: 04/09/01

DELISTED NPL: National Priority List Deletions

Source: EPA
Telephone: N/A

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Next Scheduled EDR Contact: 05/21/01

PADS: PCB Activity Database System

Source: EPA
Telephone: 202-260-3936

PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 01/01/00
Database Release Frequency: Annually

Date of Last EDR Contact: 02/12/01
Date of Next Scheduled EDR Contact: 05/14/01

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RAATS: RCRA Administrative Action Tracking System

Source: EPA

Telephone: 202-564-4104

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/95

Database Release Frequency: No Update Planned

Date of Last EDR Contact: 03/13/01

Date of Next Scheduled EDR Contact: 06/11/01

TRIS: Toxic Chemical Release Inventory System

Source: EPA

Telephone: 202-260-1531

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/97

Database Release Frequency: Annually

Date of Last EDR Contact: 12/27/00

Date of Next Scheduled EDR Contact: 03/26/01

TSCA: Toxic Substances Control Act

Source: EPA

Telephone: 202-260-1444

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/98

Database Release Frequency: Every 4 Years

Date of Last EDR Contact: 03/30/01

Date of Next Scheduled EDR Contact: 06/12/01

FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

Source: EPA/Office of Prevention, Pesticides and Toxic Substances

Telephone: 202-260-7864

FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

This report does not constitute a legal opinion.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HISTORICAL AND OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Oil/Gas Pipelines/Electrical Transmission Lines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines and electrical transmission lines.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 1999 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 1999 from the U.S. Fish and Wildlife Service.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

Disclaimer

This Report contains information obtained from a variety of public sources and EDR makes no representation or warranty regarding the accuracy, reliability, quality, or completeness of said information or the information contained in this report. The customer shall assume full responsibility for the use of this report.

No warranty of merchantability or of fitness for a particular purpose, expressed or implied, shall apply and EDR specifically disclaims the making of such warranties. In no event shall EDR be liable to anyone for special, incidental, consequential or exemplary damages.

APPENDIX D
INITIAL SITE ASSESSMENT CHECKLISTS

APPENDIX D

This Appendix contains the Caltrans Initial Site Assessment (ISA) Forms for the build alternatives for the South Orange County Transportation Infrastructure Improvement Project (SOCTIIP). As discussed in Section 5.0 (Impacts) of this Technical Report, the potential for hazardous materials along the alignments of the corridor alternatives is anticipated to be the same for both the initial and ultimate corridor configurations. Therefore, one ISA form was prepared for each corridor alignment, covering both the initial and ultimate alternatives on that alignment.

The hazardous materials along and immediately adjacent to the alignments of the SOCTIIP build alternatives were identified based on a detailed records search and field review. The findings of the records research are summarized in Section 3.0 (Existing Conditions) and are provided in detail in Appendices A, B and DC. Section 5.0 (Impacts) summarizes the existing hazardous materials by alternatives for all the SOCTIIP build and No Action Alternatives. Therefore, ISA forms in this Section that reference maps are referred to figures and tables provided in Section 5.0 of this Technical Report. Those figures and tables are not reproduced in this Appendix.

ISA Determination for the Far East Corridor-Complete-Initial and Ultimate Alternatives

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange/San Diego Route SR 241 (continuation of existing SR 241) and I-5 Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway and I-5 from approximately Cristianitos Road to Basilone Road EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to I-5/Basilone Road. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-1 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of these SOCTIIP build alternatives.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of these alternatives is in south Orange County and north San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, residential, commercial, industrial, recreation and military uses.

Rural or Urban Yes, both

Current land uses rural, agricultural, residential, commercial, industrial, recreation and military

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-1 and Tables 3.3-1, 3.3-2 and 5.4-1 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-1 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

STORAGE STRUCTURES/PIPELINES:

Underground tanks <u>No</u>	Surface tanks <u>No</u>	Sumps <u>No</u>
Ponds <u>No</u>	Drums <u>No</u>	Basins <u>No</u>
Transformers <u>No</u>	Landfill <u>No</u>	Other <u>No</u>

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining <u>No</u>	Oil sheen <u>No</u>
Odors <u>No</u>	Vegetation damage <u>No</u>
Other <u>No</u>	

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building <u>Yes</u>	Spray-on fireproofing <u>Yes</u>	Pipe wrap <u>Yes</u>
---------------------	----------------------------------	----------------------

Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE FAR EAST CORRIDOR-COMPLETE-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/waste or construction in the immediate vicinity of documented hazardous materials/waste sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the Far East Corridor-Talega Variation-Initial and Ultimate Alternatives

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange/San Diego Route SR 241 (continuation of existing SR 241) and I-5 Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway and I-5 from approximately Avenida Pico to Cristianitos Road EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to I-5 at Avenida Pico and south on I-5 from Avenida Pico to approximately Cristianitos Road. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining No

Oil sheen No

Odors No

Vegetation damage No

Other No

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE FAR EAST CORRIDOR-TALEGA VARIATION-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/waste or construction in the immediate vicinity of documented hazardous materials/waste sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the Far East Corridor-Cristianitos Variation-Initial and Ultimate Alternatives

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange/San Diego Route SR 241 (continuation of existing SR 241) and I-5 Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway and I-5 from approximately Cristianitos Road to Basilone Road. EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to I-5 at Cristianitos Road and south on I-5 from Cristianitos Road to approximately Basilone Road. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-3 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of these SOCTIIP build alternatives.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of these alternatives is in south Orange County and north San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, residential, commercial, industrial, recreation and military uses.

Rural or Urban Yes, both

Current land uses rural, agricultural, residential, commercial, industrial, recreation and military

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-3 and Tables 3.3-1, 3.3-2 and 5.4-3 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-3 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

STORAGE STRUCTURES/PIPELINES:

Underground tanks No

Surface tanks No

Sumps No

Ponds No

Drums No

Basins No

Transformers No

Landfill No

Other No

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining No

Oil sheen No

Odors No

Vegetation damage No

Other No

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE FAR EAST CORRIDOR-CRISTIANITOS VARIATION-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/waste or construction in the immediate vicinity of documented hazardous materials/waste sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the Far East Corridor-Agricultural Fields Variation-Initial and Ultimate Alternatives

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange/San Diego Route SR 241 (continuation of existing SR 241) and I-5 Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway and I-5 from just south of Cristianitos Road to approximately Basilone Road. EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to I-5 just south of Cristianitos Road and south on I-5 to approximately Basilone Road. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Phone # (949)754-3427

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-7 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of these SOCTIIP build alternatives.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of these alternatives is in south Orange County and north San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, residential, commercial, industrial, recreation and military uses.

Rural or Urban Yes, both

Current land uses rural, agricultural, residential, commercial, industrial, recreation and military

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-7 and Tables 3.3-1, 3.3-2 and 5.4-7 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-7 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

STORAGE STRUCTURES/PIPELINES:

Underground tanks No

Surface tanks No

Sumps No

Ponds No

Drums No

Basins No

Transformers No

Landfill Yes

Other No

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining No

Oil sheen No

Odors No

Vegetation damage No

Other No

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE CENTRAL CORRIDOR COMPLETE-VARIATION-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the Central Corridor-Avenida La Pata Variation -Initial and Ultimate Alternatives

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 County Orange Route SR 241 (continuation of existing SR 241) south to Avenida La Pata Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway south to Avenida La PataPico. EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to Avenida La Pata. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-8 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of these SOCTIIP build alternatives.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of these alternatives is in south Orange County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, residential, commercial, industrial and recreation uses.

Rural or Urban Yes, both

Current land uses rural, agricultural, residential, commercial, industrial and recreation

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-8 and Tables 3.3-1, 3.3-2 and 5.4-8 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-8 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

STORAGE STRUCTURES/PIPELINES:

Underground tanks No

Surface tanks No

Sumps No

Ponds No

Drums No

Basins No

Transformers No

Landfill Yes

Other No

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining No

Oil sheen No

Odors No

Vegetation damage No

Other No

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes

Spray-on fireproofing Yes

Pipe wrap Yes

Friable tile Yes Acoustical plaster Yes Serpentine _____

Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE CENTRAL CORRIDOR-AVENIDA LA PATA-VARIATION-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIP Build Alternatives could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE ALIGNMENT 7 CORRIDOR-FAR EAST CROSSOVER (CRISTIANITOS) VARIATION-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

**ISA Determination for the Alignment 7 Corridor-Far East Crossover (Agricultural Fields)-
Variation-Initial and Ultimate Alternatives**

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange and San Diego Route SR 241 (continuation of existing SR 241) south to I-5 just south of Cristianitos Road. Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway south to I-5 just south of Cristianitos Road. EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to I-5. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-14 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of these SOCTIIP build alternatives.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of these alternatives is in south Orange County and north San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, residential, commercial, industrial, recreation and military uses.

Rural or Urban rural and urban

Current land uses rural, agricultural, residential, commercial, industrial, recreation and military

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-14 and Tables 3.3-1, 3.3-2 and 5.4-14 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-14 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

STORAGE STRUCTURES/PIPELINES:

Underground tanks No

Surface tanks No

Sumps No

Ponds No

Drums No

Basins No

Transformers No

Landfill Yes

Other No

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining No

Oil sheen No

Odors No

Vegetation damage No

Other No

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE ALIGNMENT 7 CORRIDOR-FAR EAST CROSSOVER (AGRICULTURAL FIELDS) VARIATION-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the Alignment 7 Corridor-Ortega Highway-Variation-Initial and Ultimate Alternatives

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 County Orange Route SR 241 (continuation of existing SR 241) south to Ortega Highway. Kilometer Post (Post Mile) SR 241 from existing terminus at Oso Parkway south to Ortega Highway.. EA not applicable

Description Proposed southern extension of existing SR 241 from Oso Parkway south to Ortega Highway. Refer to Figure 2.2-1 in the Technical Report for the alignments of these SOCTIIP build alternatives.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-15 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of these SOCTIIP build alternatives.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of these alternatives is in south Orange County and north San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, residential, commercial, industrial, recreation and military uses.

Rural or Urban rural

Current land uses rural, agricultural, residential and recreation.

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-15 and Tables 3.3-1, 3.3-2 and 5.4-15 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-15 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for these SOCTIIP build alternatives.

ISA DETERMINATION FOR THE ALIGNMENT 7 CORRIDOR-FAR EAST CROSSOVER-MODIFIED-INITIAL AND ULTIMATE CORRIDOR ALTERNATIVES

Does the project have potential hazardous waste involvement?

Yes. There is potential that construction of these SOCTIIP Build Alternatives could result in disturbance or removal of documented hazardous materials/waste or construction in the immediate vicinity of documented hazardous materials/waste sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2003

ISA Determination for the Arterial Improvements Only Alternative

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 County Orange Route Improvements to Antonio Parkway/Avenida La Pata in south Orange County.SR 241. Kilometer Post (Post Mile) Not applicable. EA Not applicable

Description Improvements to the Master Plan of Arterial Highways designation for Antonio Parkway/Avenida La Pata. Refer to Figure 2.2-1 in the Technical Report for the alignments of this SOCTIIP build alternative.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

(Note: The TCA would not be building the arterials).

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-17 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of this SOCTIIP build alternative.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of this alternative is in south Orange County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, commercial, industrial, residential and recreation uses.

Rural or Urban rural and urban

Current land uses rural, agricultural, residential, commercial, industrial and recreation.

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-17 and Tables 3.3-1, 3.3-2 and 5.4-17 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for this SOCTIIP build alternative.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-17 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for this SOCTIIP build alternative.

STORAGE STRUCTURES/PIPELINES:

Underground tanks <u>No</u>	Surface tanks <u>No</u>	Sumps <u>No</u>
Ponds <u>No</u>	Drums <u>No</u>	Basins <u>No</u>
Transformers <u>No</u>	Landfill <u>No</u>	Other <u>No</u>

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining <u>No</u>	Oil sheen <u>No</u>
Odors <u>No</u>	Vegetation damage <u>No</u>
Other <u>No</u>	

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE ARTERIAL IMPROVEMENTS ONLY ALTERNATIVE

Does the project have potential hazardous waste involvement?

Yes. There is potential that construction of this SOCTIIP build alternative could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the Arterial Improvements Plus HOV and Spot Mixed-Flow Lanes on I-5 Alternative

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange and San Diego Route Improvements to Antonio Parkway/Avenida La Pata in south Orange County and on I-5 from approximately Interstate 405 south to approximately Cristianitos Road. Kilometer Post (Post Mile) I-5 from approximately Interstate 405 south to Cristianitso Road. EA not applicable

Description Improvements to the Master Plan of Arterial Highways designation for Antonio Parkway/Avenida La Pata and widenign of I-5 to include HOV and spot mixed flow lanes. Refer to Figure 2.2-1 in the Technical Report for the alignments of this SOCTIIP build alternative.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

(Note: The TCA would not be building the arterials or I-5 improvements).

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-18 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of this SOCTIIP build alternative.

- 1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes

2. **Project Setting** The alignment of this alternative is in south Orange County and northern San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, commercial, industrial, residential, recreation and military uses.

Rural or Urban rural and urban

Current land uses rural, agricultural, residential, commercial, industrial, recreation and military.

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-18 and Tables 3.3-1, 3.3-2 and 5.4-18 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for this SOCTIIP build alternative.

4. **Conduct Field Inspection.** Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-18 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for this SOCTIIP build alternative.

STORAGE STRUCTURES/PIPELINES:

Underground tanks Yes Surface tanks No Sumps No

Ponds No Drums No Basins No

Transformers Yes Landfill Yes Other No

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining No Oil sheen No

Odors No Vegetation damage No

Other No

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE ARTERIAL IMPROVEMENTS PLUS HOV AND SPOT MIXED-FLOW LANES ON I-5 ALTERNATIVE

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of this SOCTIIP build alternative could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002

ISA Determination for the I-5 Widening Alternative

The ISA determination is simply "Yes" or "No."

- NO: No findings have been made that would indicate a known or potential hazardous waste problem within or near the proposed project.
- YES: A known or potential site has been identified that could affect the proposed project and will take more time and effort to define and coordinate cleanup options.

Initial Site Assessment (ISA) Checklist

District 12 and 8 County Orange and San Diego Route HOV and spot mixed flow lanes on I-5 from approximately Interstate 405 south to approximately Cristianitos Road. Kilometer Post (Post Mile) I-5 from approximately Interstate 405 south to Cristianitos Road. EA Not applicable

Description Widening of I-5 to include HOV and spot mixed flow lanes. Refer to Figure 2.2-1 in the Technical Report for the alignments of this SOCTIIP build alternative.

Is the project on the HW Study Minimal-Risk Projects List (HW1)? No

Project Manager Macie Cleary-Milan, Transportation Corridor Agency
Phone # (949)754-3427

Project Engineer Paul Bopp, P.E., Transportation Corridor Agency
Phone # (949)754-3427

(Note: The TCA would not be building the arterials or I-5 improvements).

Project Screening

Attach the project location map to this checklist to show location of all known and/or potential HW sites identified.

Refer to Figure 5.4-19 in the Technical Report for the locations of recorded hazardous materials and wastes sites along and in the immediate vicinity of the alignment of this SOCTIIP build alternative.

1. Project Features: New R/W? Yes Excavation? Yes Railroad Involvement? No
Structure demolition/modification? Yes Subsurface utility relocation? Yes
2. Project Setting The alignment of this alternative is in south Orange County and northern San Diego County as shown on Figure 2.2-1 in the Technical Report. The area includes rural, agricultural, commercial, industrial, residential, recreation and military uses.

Rural or Urban rural and urban

Current land uses rural, agricultural, residential, commercial, industrial, recreation and military.

Adjacent land uses same as above

3. Check federal, State and local environmental and health regulatory agency records as necessary, to see if any known hazardous waste site is in or near the project area. If a known site is identified, show its location on the attached map and attach additional sheets, as needed, to provide pertinent information for the proposed project.

Refer to Section 3.1.1 (Data Sources) in this Technical Report for the list of regulatory agency records reviewed for this analysis. Refer to Figure 5.4-19 and Tables 3.3-1, 3.3-2 and 5.4-19 in this Technical Report for documented hazardous materials/wastes sites within or immediately adjacent to the right of way for this SOCTIIP build alternative.

4. Conduct Field Inspection. Date Field reviews throughout the SOCTIIP study area were conducted in 2001 and 2002.

Refer to Figure 5.4-19 in this Technical Report for hazardous materials/wastes sites within or immediately adjacent to the right of way for this SOCTIIP build alternative.

STORAGE STRUCTURES/PIPELINES:

Underground tanks <u>Yes</u>	Surface tanks <u>No</u>	Sumps <u>No</u>
Ponds <u>No</u>	Drums <u>No</u>	Basins <u>No</u>
Transformers <u>Yes</u>	Landfill <u>Yes</u>	Other <u>No</u>

CONTAMINATION: (spills, leaks, illegal dumping, etc.)

Surface staining <u>No</u>	Oil sheen <u>No</u>
Odors <u>No</u>	Vegetation damage <u>No</u>
Other <u>No</u>	

HAZARDOUS MATERIALS: (asbestos, lead, etc.)

Note: Most of these hazardous materials could potentially occur in structures in the developed areas along the alignment of these alternatives and could be present in older buildings and highway structures anticipated for demolition under these alternatives.

Building Yes Spray-on fireproofing Yes Pipe wrap Yes
Friable tile Yes Acoustical plaster Yes Serpentine _____
Paint Yes Other _____

5. Additional record search, as necessary, of subsequent land uses that could have resulted in a hazardous waste site. Use the attached map to show the location of potential hazardous waste sites.

No additional record searches have been conducted since the original searches in 2001 and 2002.

6. Other comments and/or observations: None.

ISA DETERMINATION FOR THE I-5 WIDENING ALTERNATIVE

Does the project have potential hazardous waste involvement?

Yes There is potential that construction of this SOCTIIP build alternative could result in disturbance or removal of documented hazardous materials/wastes or construction in the immediate vicinity of documented hazardous materials/wastes sites.

No If there is known or potential hazardous waste involvement, is additional ISA work needed before task orders can be prepared for the Investigation? No If "YES," explain; then give an estimate of additional time required:

It is not anticipated at this time that additional ISA work would be initiated until an alternative is selected for implementation.

A brief memo should be prepared to transmit the ISA conclusions to the Project Manager and Project Engineer.

The ISA conclusions, as documented in this Appendix and this Technical Report, are products of the Transportation Corridor Agency and will be transmitted to Caltrans for review and comment as part of the environmental process for the proposed SOCTIIP.

ISA Conducted by Robert Olsen, P&D Consultants Date August 2002
