Re: Long Island Sound.

Dear Ms. Salas;

I am writing this letter to you on behalf of the Citizens Campaign for the Environment with respect to the Broadwater joint venture proposal for Long Island Sound.
According to the results of the Coast Guards safety and security report, there are substantial risks associated with placing this facility in the sound.
It is our opinion that Broadwater is too costly, risky and not needed in the sound and constant armed private security will disrupt the peace and tranquility of this beautiful area.

We urge you to consider this proposal very seriously and we would like to know of your position on this matter
