Regarding Broadwater Liquified Natural Gas

I do not believe such a proposal would be good for the safety of life (1) Human - we would be in more danger to terrorist attacks (2) It would have a Bad Effect on Boating, fishing, swimming, environment. (3) The Expense would be too much!!! (4) The Value of the Long Island Sounds History of family recreation, Parks and Beaches would be distroied. (5) No industrial Plant should be built on the Long Island Sound or any Waters near Manhatten. Has not 911 taught us anything yet? Find another way. Not near my Back yard.

Yours truly,
Paul R. Spinner

P.S.
Who's making out on this deal?? Not the tax Payers!!!
