Dear Magalie R. Salas

The Long Island Sound does not need a costly, risky, LNG barge. The tranquil Long Island Sound would be forever ruined by private armed security forces surrounding the barge. We love boating in the waters off Long Island. It is one of the main reasons we live here. The beaches and bays are so beautiful here, let's keep it that way. Please respond to this letter informing me of your position. Thank you.

Sincerely,

Thomas G. Patti
