FEDERAL ENERGY
REGULATORY COMMISSION

To Magalie Salas CP06-54-000
Federal Energy Reg. Commission,
and to whom it may concern...

We are writing because we are concerned about the well-being of the Long Island Sound.
We are aware of attempts by (LNG) Shell Oil - etc. to develop a floating facility on the Long Island Sound.
(LNG) This facility would endanger the safety and health of the Long Isl. Sound, and it's inhabitants.
We support keeping the Sound free of any and all un-natural additions, and feel this facility should NOT be built. We enjoy boating, fishing, and all the wildlife near the Sound. Please do NOT support industrializing the Sound. Please write back - and let us know you received this letter. THANKS for your time + concern.

Sincerely,
Paula + Rob Peck
