CP06-54-000

I am very interested in your position on Broadwater Liquid Natural Gas terminal.

My information tells me that this issue would be very costly and very dangerous to the Long Island Sound. This waterway is used by boaters and fisherman. I think that this would really be a disaster to the beauty of the Sound. The constant armed private security will cause a very unsafe passageway into the Sound. This facility is inappropriate and it would put an end to the tranquil, calm waters of the Sound. We donot need any industrializing of the Sound.

thank you

June Irvine
