To Whom It Concerns:

We are contacting you so that we might express our strong opposition to the Broadwater Facility. We have resided on LI for the passed 9 years, but we have enjoyed the LI Sound for many, many more. As taxpayers here, we are concerned that this would be very costly to us, not to mention all the risks involved. In my opinion, the presence of an LNG barge and armed security boats that will be escorting it is not a very sound idea. This kind of facility would limit public access, both commercial and recreational. It may also set a dangerous precedent of the industrialization of th sound. Pls take what we say into consideration. I look forward to hearing from you. Thanks very much for you attention.

Sincerely,

Maria Aboudi
