Re: Broadwater Energy LLC, Docket No. CP06-54-000  
Broadwater Pipeline LLC, Docket Nos. CP06-55-000 & CP06-56-000  
U.S. Army Corps of Engineers Application

Dear Ms. Salas:

Enclosed for filing in the referenced proceedings is a copy of Broadwater's "Application to the United States Army Corps of Engineers ("USACE") for Construction and Operation of the Broadwater LNG Terminal and Associated Pipeline in Long Island Sound, Long Island, New York," which was filed with the USACE on March 24, 2006.

This filing consists of two volumes, a Public Volume (Volume 1 of 2) and a Critical Energy Infrastructure Information ("CEII") Volume (Volume 2 of 2), each of which is on CD. Figure 1-1 and Table 1-1 contain detailed information regarding the location of the proposed pipeline. Although Broadwater understands that information that "simply give[s] the location of the critical infrastructure" is not generally considered CEII, *see* 18 C.F.R. § 388.113(c)(1)(iv), Broadwater notes that this information is very specific and includes exact x-y coordinates for multiple points along the pipeline. In an abundance of caution, Broadwater requests CEII treatment for this information.

An original and seven copies of the Public volume and an original and two copies of the CEII volume are being submitted. Please date stamp and return to our messenger the additional copies of each.

Magalie Roman Salas, Secretary

Please do not hesitate to contact me with any questions regarding this submission.

Respectfully submitted,

Brett A. Snyder  
*Counsel to Broadwater Energy LLC and  
Broadwater Pipeline LLC*
