Dear Ms. Salas,

I am a resident of Smithtown and I am writing about Broadwater. I think Broadwater will be too costly, risky and is not needed in the Long Island Sound. This facility is an inappropriate use of the estuary. The tranquil, calm waters of the Sound would be disrupted by the constant presence of armed private security forces surrounding the barge. I believe this facility limits public access and sets a precedent of industrializing the Sound. I believe this project will be an environmental problem to a very populated area

Sincerely,

Lorna Loperfido
Smithtown, New York.
