Dear Ms.Salas:

I am writing as a concerned citizen and one of the 20 million people who live within 50 miles of the beaches of the Long Island Sound. I am distressed to learn about the proposed "Broadwater" venture between Shell Oil and TransCanada. A liquid natural gas facility does not belong in the middle of the Long Island Sound. Not only does such a facility endanger the health and safety of the Sound, it also limits public access for the first time ever and sets a dangerous precedent of industrializing the one of the area's finest natural treasures.

Please let me know what your position is on this project.

Sincerely,  
  
Mary Devlin Sobel
