Dear Ms. Salas,

In regards to the Broadwater venture between Shell Oil Company and TransCanada; this venture is too costly, risky and not needed in the Sound. The constant armed private security that will be required disrupts the peaceful tranquil waters of the LIS.

Having this facility limits public access and sets a dangerous precedent of industrializing the Sound and is an inappropriate use of the estuary.

I respectfully ask you to please take action and respond in writing, informing me of your position.

Sincerely,

Victoria Donaudy
