Magalie R. Salas  
Federal Energy Regulator Commission  
888 First St, N.E, Rm 1A  
Washington, DC 20426

CP06-54-000

Dear Ms. Salas,

As I am aware of the proposed Broadwater Liquid Natural Gas terminal to be placed in the middle of the Long Island Sound, I am writing to let you know that I am against the project. I feel that it would ruin the waters of Long Island by having private armed security forces surrounding the barge preventing local boaters from enjoying the Long Island sound. The danger that could be brought to Long Island is wrong at this time with all things going on in the world. It would also be too costly and it is not needed. The danger and disruption should not be allowed.

Please consider all who would be affected by this project before the next step is taken.

Sincerely,

C. Getman
