FEDERAL ENERGY
REGULATORY COMMISSION

Dear Mr. Salas:

CP06-54-000

I am writing to oppose the proposed Broadwater Liquid Natural Gas terminal proposed for the middle of the Long Island Sound.

Broadwater would be too costly, and not needed in the Sound, and the constant armed security would the peaceful nature of the region.

Also, the facility would limit the public access to the waters surrounding our homes, and would set a dangerous precedent of industrializing the sound.

Also, the navigation of the sound by pleasure craft and local fishermen would be endangered due to the presence of LNG tankers.

Please take my concerns into account when rendering a decision.

Thank you,

Michael A. Rosenthal
