

To: Hon. Eliot Spitzer: CP06-54-000

As a resident of Suffolk County, Long Island I am writing to protest "Broadwater".

It is totally unnecessary, and poses an immense risk. Add to that the disturbance and destruction of the serenity and beauty of Long Island Sound---and I think my case speaks for itself!

Plus----what of the fact that costly private security will be needed----no one can convince me that this would be anything but a huge disaster for all!

How and why are people going to be expected to continue to live on Long Island--what with the outrageous property taxes and now the potential destruction of our beautiful Long Island Sound!

I hope that you will pay attention and heed these words of a concerned citizen!

Sincerely, *Richard Wilkinson*
