RECEIVED  
OFFICE OF THE  
SECRETARY  
2006 DEC 21 A 8:53  
FEDERAL ENERGY COMMISSION

Dear Madam:

I am writing to express my opposition to the Broadwater LNG Terminal proposed for the LI Sound. I have lived within walking distance of the Sound my entire 50 years, from Wading River to Port Jefferson. It has been the venue for most of my family's leisure time and the source of great pleasure for us. It has taken my whole life to finally afford the purchase, just last week, of our own boat. No more bumming rides with friends for fishing, water skiing or beaching adventures. My children are in their early teens, and with their many friends, we plan to make our new boat the focus of our time together, just as our parents did with us.

We do not need this costly and risky facility; it will disrupt the boating and fishing experiences of everyone on the LI Sound. We all suffered through the Shoreham Nuclear Power Plant debacle. We're about to suffer, again at the hands of LIPA and the neglect of our government, as the fates of both the Port Jefferson and Northport Power plants fall to the wayside after the Caithness Plant is built in Yaphank. The Broadwater Terminal will be yet another example of our governments' lack of interest for what is important to its constituents.

Thank you,

Dennis Eylers
