Dear Mr. Salas:

I want to add my voice to those opposing
the Broadwater Natural Gas terminal in
L.I. Sound. It is out of character for our
Long Island environ and noone can assure
its safety. It would disrupt certain marine
clearances and activities, be very costly, and
better replaced by solar, wind, or other energy sources.

Attn: Mrs Clinton,

As a long Islander - i am strongly opposed to the idea of Broadwater. I have done my research via broadwater energy.com & feel that the idea is good willed, but will only cause terrible problems with a - environment. Not only our environment - but the safety of New York. It is impossible to calculate the thinking of a terrorist I strongly believe that a terrorist is not concerned with "population" - but causing an economic catastrophe. I am only 18 years of age Mrs. Clinton, but i fear for my future - for the future of those after me. Our environment is deteriorating - & you cannot deny that. The idea of natural gas sounds great - but how plausible is it? What if the "emergency procedures" fail. The idea - i feel has not been thoroughly thought out. How else if you have any information please send it. Perhaps i am being ignorant - but i will remain this way until i am provided w/ further information.

Dear Ms. Salas,

I am not in favor of the Broadwater project. As you know on the ballot for Nassau County residents this year is the proposition to save the land on Long Island. Buy and saving open spaces has been an on going cost for both Nassau and Suffolk residents; as well as the cost of cleaning up the environment of toxic waste left by our last generation. So why would any person in authority consider putting a terminal in the middle of our great Long Island Sound. Please think twice before even considering such a terrible mistake.

Thank you,

Re: Broadwater Natural Gas Terminal (Long Island Sound)

Dear Magalie:

I urge you to consider this letter as a plea not only from myself, but from the general taxpaying public of Long Island:

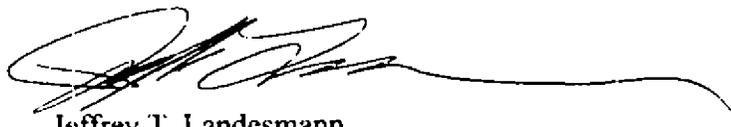

Broadwater is too costly, risky and not needed in the Long Island Sound.
The constant armed private security disrupts the peaceful, tranquil waters of the Sound.
The eyesore created will forever ruin our precious coastline.

This facility is set to limit public access on waterways on which I and many other native Long Islanders grew up. Furthermore, it sets an irreversible trend and precedent that it is acceptable to industrialize the Long Island Sounds.

I ask that you acknowledge my request *in writing* and inform me of your position on this serious matter.

I thank you for your consideration and understanding of this serious situation.

Sincerely,

Jeffrey T. Landesmann

Dear Ms Salas,

I am very opposed to the planned Broadwater project on the Long Island Sound. The project is too costly, risky and not needed in the L.I. Sound at this time. The cost of security would be somehow either added to our already excessive taxes or simply put into the price of the products as the corporations never seem to pay their fair share in the long run. This project would set a dangerous precedent of industrializing our waterways for, what seems to me, solely a profit motive and is unacceptable to us L.I. residents.

Dear Ms. Salas,

We are Long Island residents and feel very strongly against the proposal to place a Liquefied Natural Gas terminal in the middle of the Sound near Rocky Point. There are too many risks associated with this proposal, not only for our neighbors who enjoy recreational boating, but also for the safety of those people who live near the Sound.

Broadwater would be too costly, too risky, and is not needed in Long Island Sound. We also feel that constant armed private security would disrupt the peaceful tranquil waters of the Sound and the community.

Please respond in writing, informing us of your position.

Sincerely,

Dear Ms. Salas:

I am writing to you to let you know that the Long Island Sound does not need a costly, risky LNG barge. The tranquil LIS would be forever ruined by private armed security forces surrounding the barge.

I would also like to inform you that Broadwater is too costly, risky and not needed in the Sound and the constant armed private security disrupt the peaceful tranquil waters of the Sound.

Thank you for your time.

Sincerely,

Peter T. Stathes

Dear Ms. Salas,

As a household, we are strongly against the LNG Barge project. It would be terrible for the environment, too costly on tax payers and way too risky. The sound would no longer be tranquil and the barge would only add to industrial noise and pollution. It also sends a message to foreign countries that America's waters are for sale.

Sincerely,

Nicole Hansen

Dear Ms. Salas,

We are Long Island residents and feel very strongly against the proposal to place a Liquefied Natural Gas terminal in the middle of the Sound near Rocky Point. There are too many risks associated with this proposal, not only for our neighbors who enjoy recreational boating, but also for the safety of those people who live near the Sound.

Broadwater would be too costly, too risky, and is not needed in Long Island Sound. We also feel that constant armed private security would disrupt the peaceful tranquil waters of the Sound and the community.

Please respond in writing, informing us of your position.

Sincerely,

Jack Ferreira

I am writing this letter to express my concern about the issue of Broadwater. Broadwater is too costly, risky and not needed in the Long Island Sound. The constant armed private security disrupts the peaceful tranquil waters of the Sound. In addition this facility limits public access and sets a dangerous precedent of industrializing the Sound.

Thank you for your attention to this matter

Dear Magalie R. Salas,

I am writing to you today because I support the Citizens Campaign for the Environment. Broadwater is not needed in the Sound and the private security disrupts the peaceful waters of the Sound. Long Island does not need something so costly and it is too risky. It limits public access and sets a dangerous precedent of industrializing the Sound.

Thank you for taking time to consider this letter and if you can please write me and tell me where you stand on this matter.

Thank You,
Sincerely,

Christina Rauch
