WASHINGTON, DC

Dear Ms. Salas,

I am writing to tell you that I am opposed to the proposed Broadwater LNG terminal in the Long Island Sound. Such a facility in the Sound would undoubtedly have a huge negative impact on the prosperity of the natural habitats of this already endangered region. I have read that costs of protecting and supporting the LNG terminal would be absorbed by our local municipalities. Additionally, I understand that the Synapse consulting firm has determined that this facility is unnecessary, and could not possibly justify the negative environmental and recreational impact that it would bring to the Sound. I know that I would absolutely not bring my family to a beach anywhere near such a facility.

Please do not allow the Broadwater LNG terminal to be placed in the Long Island Sound.

Sincerely,

Eric Katz
