Magalie R. Salas
Federal Energy Regulatory Commission
888 First St. N.E. Rm 1A
Washington, DC 20426

CP06-54-000

Dear Magalie R. Salas,

I am writing this letter to urge you to do what you can to stop the building of a liquefied natural gas facility in the Long Island Sound.

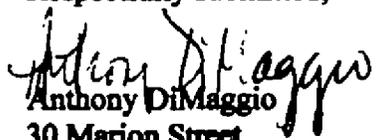

All we hear is recycle, don't pollute, global warming, that our marine life is in jeopardy that our air quality needs to improve, that we should use fuel efficient or "green" cars. So how can anyone think building this facility would be good?

The people of Long Island are working hard to protect our environment and a Liquefied Natural Gas Facility endangers the health and safety of the Long Island Sound and should not be built. Building this facility limits public access and sets a dangerous precedent of industrializing the Sound.

I would like to know your position on this matter, please respond to me in writing.

Thank you for taking the time from your busy day to read this letter.

Respectfully submitted,

Anthony DiMaggio
30 Marion Street
Oyster Bay, NY 11771

FEDERAL ENERGY
REGULATORY COMMISSION

Dear Ms. Salas: CP06-54-000

A Liquefied Natural Gas Facility
does NOT belong in Long Island
Sound. The LNG facility is
a danger to the health and
safety of the sound and
should not be built.

Sincerely,
Mrs. J. Coughlan
