Dear Magalie R Sales,

I am opposed to the Broadwater Project. The project will be located in an area which will be unsafe considering the heavy boating traffic. Enough of this country's natural habitat has been taken over by big business.

Furthermore, not only would our safety and the safety of the surrounding wildlife be in peril should an accident occur, the cost of "trying" to secure our sound would be prohibitive.

As a citizen I am troubled by the prospect of private armed security patrolling Long Island Sound in order to pad the pockets of big business.

Sincerely,
Maurice...

P.S.

Please provide written response regarding your position regarding this proposal.
