FEDERAL ENERGY
REGULATORY COMMISSION

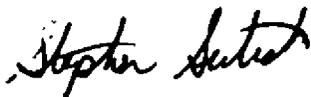

CP06-54-050

Dear Ms. Salas:

I am writing to ask you to support in opposing the Broadwater project. This project is a proposal to place a liquefied natural gas terminal in the middle of Long Island Sound.

This proposal is too costly, risky for our environment and is simply not needed. No one has the right to utilize the sound for industrial purposes without full approval of the people affected. The peacefulness and tranquility of the sound waters will be permanently altered. Please join in the fight to keep Long Island Sound for the people and not for big business.

Sincerely,

Stephen Sutich
