Dear Magalie R. Salas,

I am writing to you regarding the proposed project called Broadwater Liquefied Natural Gas terminal in the middle of Long Island Sound. It would be too costly to taxpayers who would foot the bill for firefighting resources as well as security. It is foolish to put a potential weapon of mass destruction in Long Island Sound where recreational fishing goes on. This is a body of water Long Islanders should have free and safe use of without armed security marring the serenity and an eye-sore barge floating in our beautiful Sound.

If we let this project go through, who will be invading our waterways next? Let's leave it to the fish.

Sincerely,

Debra Saunders
