CP06-54-000

**Dear Ms. Salas:**

**This letter is to protest the proposed Broadwater liquefied natural gas facility that is presently being considered for construction in the Long Island Sound off Rocky Point, NY. The environmental impact of such an endeavor would be detrimental by endangering the health and safety of the Long Island Sound. A facility such as the LNG would also limit public access and set a dangerous precedent for industrializing the Sound.**

**Please do everything in your power to stop the building of the LNG facility in the Long Island Sound. Thank you.**

Sincerely,  
  
Eric P. Maas
