Dear Rep. Salas,

CP06-54-000

FEDERAL ENERGY
REGULATORY COMMISSION

We have chosen to live on Long Island at great personal cost. One of our primary reasons for doing so is access to clean healthy waterways. Our entire family enjoys the local, county and state beaches. They are an integral part of our family recreation. Since living expenses are so high on Long Island we depend on our clean waterways for entertainment, health & well-being and value.

We are very concerned about our waterways and how our tax dollars are spent to protect them.

The Broadwater project although designed to reduce our electrical rates is not the best way for our tax dollars to be spent. Not at the risk of our waterways. There are more safer avenues to consider.

We hope you will listen to our voice. Broadwater is too costly ,risky and not needed in the Sound and the constant armed private security disrupts the peaceful tranquil waters of the Sound.

Sincerely,

A handwritten signature in black ink, appearing to be 'M. Salas', written over a horizontal line.
