FEDERAL ENERGY  
REGULATORY COMMISSION

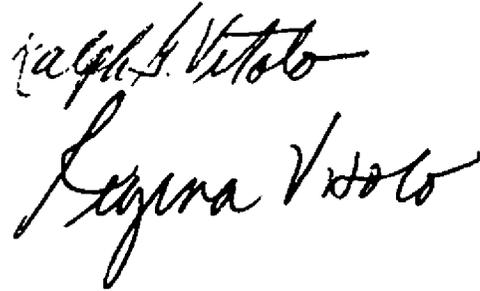

Dear Ms. Salas,

As a Long Island resident for over forty years, I want you to use all means to stop the Broad Water Project from being implemented. Broadwater is too costly, and not necessary in the Sound. It is a project that has negative prospects, a magnet for terrorism, and will require constant armed private security forever, which will cost the tax payers on Long Island, already suffering under the burden of high taxes imposed on us by LIPA. Everything about the project will disrupt the peaceful and tranquil waters of the Sound.

This facility will limit public access and sets a dangerous precedent of industrializing the Sound.

On behalf of my husband and myself, I urge you to turn away this project.

Sincerely,

**Regina and Ralph Vitolo**
