CP06-54-000

Dear Ms. Salas:

We have just learned of the attempt by Shell Oil and Trans Canada Pipeline to establish a liquefied natural gas facility in the middle of Long Island Sound. As a property owner very near the water, with rights to a private beach along the Sound, we are very distressed that such a commercial facility that poses real danger to ourselves and to the natural flora and fauna, is being proposed.

We trust that you share our concerns and fears, and wish to protect the natural beauty of the Sound as much as we do. Toward that end, we hope that you will strongly oppose such development, and use the full power of you position to prevent those who not share our concerns, from achieving their goals

Yours truly,

Marion and Judah Maze
