To Whom It May Concern:

I am writing today to let you know that I am upset about the proposed Broadwater Natural Gas terminal. As a long-time resident of Long Island, I feel I should speak out about this proposed atrocity that would forever tarnish our wonderful and ecologically friendly area. I am opposed to the Broadwater terminal!! The Long Island Sound and Long Islanders don't need a potentially dangerous, costly, taxable nightmare such as this! Please urge others in a position to stop this from happening to hear our message. Thank you.

Sincerely,

Sarah Niebuhr

Smithtown, NY
