It is our belief that Broadwater is too costly, risky, and not needed in the Long Island Sound. The Constant armed private security, while needed, would disrupt the peaceful use of the tranquil waters of Long Island Sound.

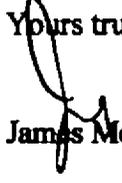

The existence of Plum Island facilities is enough of a burden and a security issue t Long Island already has to bear.

This facility, if approved, would limit the public's access to the waterways and sets a dangerous precedent for the industrializing of the Long Island Sound.

We, as Long Islanders, would like to know your position in this issue.

Thank you for your time.

Yours truly,

James Meneilly
