FEDERAL ENERGY REGULATORY COMMISSION

Dear Magalie:

It has just been brought to my attention that the government is entertaining the idea of creating a natural gas facility in the middle of Long Island Sound. As a New Rochelle resident and one who actively races sailboats up and down the Sound, I sincerely encourage you to reconsider the impact that this Broadwater facility will have on the State. Yes, we probably do need such a capability; but I encourage you to develop an alternative plan which would be less disruptive to all aspects of the Sound.

Sincerely,

Edward R. Padin
