Dear Magalie Salas,

As native New Yorkers and life long residents of the State of New York our family is strongly opposed to any further endangerment of Long Island Sound by any proposal, much less the development of a natural gas facility.

Such a facility can and should be built elsewhere, but not in the fragile confines of Long Island Sound where it would endanger the health and safety of not only residents but of the entire ecosystem.

Please put an end immediately to this dangerous and obviously unwise precedent for industrializing Long Island Sound.

On behalf of the Lituchy Family,

Barry Lituchy
