I want to express my concerns regarding the Millennium Pipeline going through my area. This is not a safe venture. It puts 100's of school children in harms way and devastates Teatown Nature Preserve. It is a no-brainer!!!!

Gentlepeople, As residents of Croton on Hudson, what more can be said about Millennium... no way! no how! we do not want it, we do not need it, the whole idea about cutting, blasting, this pipeline through our community is totally absurd!!! Enough is enough Millennium, go away and stay away!

Dear NOAA,

On behalf of the United Communities of Westchester, we want to express our sincere gratitude for the November 13th public hearing in Tarrytown New York. The hearing was conducted in a very professional manner and we walked away feeling that members of the NOAA/ DOC panel truly listened to our concerns.

We respectfully request that the comments from elected officials, organizations and citizens be posted on the website as soon as possible. The December 2nd deadline is upon us, with the Thanksgiving holiday in between. We would like to provide people with the time to comment on the information acquired on November 13th.

Sincerely,

Dani Glaser

on behalf of the United Communities of Westchester
